

EMMA

Send your advertising, here, there and everywhere!

A revolution in scheduling design provides faster, accurate and painless control

Upload the advertisements, drag and drop, assign criteria and then you're done

Pulldown options makes setting criteria easy

Reuse Existing media to reduce costs

The advertisements will deploy and play, when and where required, without further input

Works across town, the country or the world

- Simple and fast, in four easy steps. Painless!
- User defined advertisements groups – options are endless, by product group or region or promotion type, etc.
- To maintain just upload new advertisements and assign. No need to touch schedule.
- Distribution is automatic.
- Upload and schedule advertisements for later use.
- Remove advertisements instantly.
- You can reuse your existing advertising media, due to the unique signage templates, save money and time.
- Add movement to static posters
- No digital signage scheduling experience required.
- Manage hundreds of digital displays in seconds each day.
- Login hierarchy improves security and efficiency.
- Users only have limited access visibility to areas required.
- Approval options available if required.
- Cloud online support available to assist with functionality or resolve technical issues, 24/7.
- Cloud's Studio is available for artwork creation

HOW IT WORKS
